## Aspiring Data Analyst

ananya.sharma.data@gmail.com | +91 98765 43210 | linkedin.com/in/ananya-sharma-data | Bengaluru, India

### PROFESSIONAL SUMMARY

Detail-oriented B.Tech graduate with hands-on training in Excel, SQL, and Power BI through the Coding Ninjas Data Analytics program. Completed a 2-month virtual internship analysing e-commerce sales data. Comfortable with data cleaning, pivot tables, joins, and building basic dashboards. Looking to start my career as a Data Analyst in a fast-paced fintech environment.

### SKILLS

MS Excel (Advanced): Pivot Tables, VLOOKUP/XLOOKUP, Power Query | SQL: Joins, Aggregate Functions, Subqueries | Power BI: Data Modelling, DAX Basics, Report Building | Python (Basic): Pandas, NumPy | Data Cleaning & Preparation | MySQL Workbench

### EDUCATION

#### B.Tech in Computer Science Engineering

Dayananda Sagar College of Engineering, Bengaluru | 2021 - 2025

CGPA: 8.2/10

#### Class XII (CBSE)

Delhi Public School, Bengaluru | 2021

89%

### WORK / INTERNSHIP EXPERIENCE

#### Data Analytics Intern — BrightCart E-commerce Solutions (Remote)

May 2024 - Jul 2024

- Cleaned and structured 6 months of raw sales transaction data (50,000+ rows) in Excel, removing duplicates and correcting formatting errors.
- Wrote SQL queries using joins and aggregate functions to extract category-wise revenue trends from MySQL database.
- Built a Power BI dashboard tracking daily order volume, top-selling categories, and regional sales split for the founder's weekly review.
- Presented key findings to a team of 4, recommending restocking priorities for 3 underperforming SKUs.

### PROJECTS

#### India CPI Inflation Analysis (Coding Ninjas Capstone)

- Analysed 5 years of India's Consumer Price Index data using Excel and Power BI to identify sector-wise inflation trends.
- Built interactive Power BI report with drill-downs for food, energy, and transport sector inflation.

#### Retail Store SQL Analysis

- Used MySQL Workbench to design a retail store schema and write advanced queries for CRUD operations and reporting.
- Applied string and date functions to identify seasonal purchase patterns.

### CERTIFICATIONS

- Coding Ninjas — Data Analytics with Excel, SQL, Power BI & Python (2024)

- Microsoft Excel Advanced — Great Learning (2023)
- Power BI Data Analyst Associate — In Progress
