WORK / INTERNSHIP EXPERIENCE

Data Analyst Intern (Virtual) — Nimbus Analytics Studio

Feb 2024 - May 2024

- Cleaned and standardised customer feedback data (15,000+ rows) in Excel, handling missing values and duplicates.
- Wrote SQL queries using joins and aggregate functions to summarise customer satisfaction scores by region.
- Built a Power BI dashboard for the client's monthly business review, tracking NPS trends over 6 months.
- Used ChatGPT to speed up first drafts of insight summaries, then validated and refined manually.

PROJECTS

PhonePe Digital Payments EDA (Coding Ninjas Capstone)

- Analysed PhonePe transaction data with demographic details across Indian states using Python (Pandas) and Excel.
- Identified device-usage and regional adoption trends, visualised via Power BI.
