---

### PROFESSIONAL SUMMARY

Mechanical Engineering graduate with internship experience in CAD design and production planning. Looking to explore opportunities in the analytics domain, though most academic and project work has been focused on core mechanical design and manufacturing processes.

### SKILLS

AutoCAD, SolidWorks, CATIA | Manufacturing Process Planning | MS Excel (Basic - for BOM sheets) | MS PowerPoint | Basic knowledge of MATLAB

### EDUCATION

#### B.Tech in Mechanical Engineering

College of Engineering, Pune | 2021 - 2025

CGPA: 7.5/10

### WORK / INTERNSHIP EXPERIENCE

#### Design Intern — Precision Auto Components Pvt. Ltd.

May 2024 - Jul 2024

- Created 2D and 3D CAD models for automotive bracket components using SolidWorks.
- Maintained a Bill of Materials (BOM) in Excel for the design team.
- Assisted senior engineers in tolerance analysis for 5 machined parts.

### PROJECTS

#### Design and Analysis of a Go-Kart Chassis

- Designed and simulated chassis structure in SolidWorks and ANSYS for stress analysis.
- Presented findings at college technical symposium.

### CERTIFICATIONS

- SolidWorks Certified Associate (CSWA)
- Six Sigma Yellow Belt
