Career objective

Aspiring **Business Analyst** currently pursuing a Master of Computer Applications (MCA) at Chandigarh University with strong analytical and problem-solving abilities. Proficient in SQL, Python, Excel, MySQL, and data visualization techniques for extracting meaningful insights from data. Experienced in designing database-driven applications and analytical projects with a passion for transforming business requirements into data-driven solutions that improve decision-making and operational efficiency.

Education

- **Master of computer application [MCA]:** Chandigarh University, Mohali | 2025-2027 current CGPA: 8.59/10.0
- **Bachelor of science [b.sc] physics (h):** Jamshedpur women's university, Jharkhand | 2021-2024 aggregation: 75%.
- **Intermediate (non-medical):** Jamshedpur women's university, Jharkhand | 2019-2021 aggregation: 63%.
- **Matriculation (class X):** Chota Nagpur Vikash high school, Jharkhand | 2019 aggregation: 83%.

Internship Experience

Cloud computing intern | in trainz innovation.

October 2025–january 2026

- Assisted in deploying and managing applications on cloud platforms like AWS/Azure/GCP, ensuring scalability and reliability. Assisted in full stack development with cloud integration.
- worked with Docker/Kubernetes and cloud resources.

Academic projects

- **RedBus Clone (Full Stack Project).** Oct 2024–jan 2025
- **Attendance Management System:** Oct 2025–jan 2026
(Implemented AWS cloud deployment for reliable, accessible, and secured data storage.)
- **AI medicine management system (Java based)** Jun 2026–jul 2026
- **Intelligent Route Optimization Using Graph-Based Algorithms.** mar 2026–apr 2026
"Comparative Analysis of BFS, DFS, Dijkstra, and A Algorithms for Shortest Path and Route Optimization" *1
- **Secured role based management system (C++ programming, Qt creator).** . 13 may 2026 - present

PowerBI Projects:

- **HR Analytics Dashboard:** Developed an interactive HR dashboard in Power BI to analyze employee attrition, workforce demographics, and key HR KPIs.
- **Sales Dashboard:** Built a Power BI sales dashboard to visualize revenue, profit, regional performance, and sales trends for business insights.
- **Netflix Dashboard:** Created a Power BI dashboard to analyze Netflix content by genre, ratings, release year, and country using interactive visualizations.
- **Vrinda Sales Dashboard:** Designed a Power BI dashboard to track Vrinda Store sales performance across products, states, customer demographics, and sales channels.

Technical skills

- **Data Analytics:** SQL, Microsoft Excel, Data cleaning, Python, Data Analysis, Data Visualization, PowerBI
- **Web Technologies:** Node.js, React.js, RESTful APIs, CRUD operations
- **Programming Language:** Java, Javascript, C, C++
- **Database Management:** MySQL, MongoDB.
- **Business Intelligence:** Dashboard Reporting, KPI Analysis, Business Process Analysis
- **Tools:** Figma, Git, Github, Postman, Bootstrap, Tailwind, Jira (Project management).

Interpersonal skills

- Team Collaboration
- Problem Solving:
- Adaptability & Learning.
- Freelancing

Certification&Achievement.

- Winner:hackathoncodex(2024).
- **Certification:**Pwskillsfullstack,AWScloudcomputing,GenerativeAI,InfosysSpringboot,PowerBI
- Certifieddancer.

INTERESTS

- Data Analytics
- Business Intelligence
- Artificial Intelligence
- Dashboard Development
